IN SAN FRANCISCO

Anekke Peace & Love La revolución del amor

Recuerdo que pensé: "siempre seremos jóvenes". En aquel festival cientos de jóvenes como yo soñábamos con hacer del mundo un lugar mejor. Vestíamos flores en el pelo y bailábamos al son de la música, dejándonos llevar. Nos perfumábamos con el aroma de la libertad y fluíamos con nuestras emociones. Y, sin darnos cuenta, nació la revolución del amor.

El mensaje de "paz y amor" se convirtió en nuestra filosofía de vida. Creíamos en la magia de las flores, en el respeto a todos los seres vivos, nos grabamos a fuego que debíamos proteger el Planeta.

Y mientras recorría la costa oeste de EEUU a toda velocidad, sentía que la vida aceleraba al ritmo de mi furgoneta. La música me conducía a través de largas carreteras soleadas, regalándome cielos dorados y paisajes infinitos.

Fui dejando atrás los lugares más magníficos que podía imaginar. Cada nueva ciudad era una nueva oportunidad, una nueva aventura, un nuevo recuerdo en mi mente. Los Ángeles, San Francisco, San Diego... Cada nueva ciudad era una nueva oportunidad de conectar con otras personas que sentían lo mismo que yo: que la vida fluía en colores, con nuevas formas. A través del amor.

Y así comenzó la revolución, con la música latiendo en nuestros oídos y la sensación de que éramos eternos. Porque esa es la mayor revolución de la vida: la del amor.

¡Deja fluir tus sentimientos!

Anekke Peace & Love: The revolution of love

I remember I thought: "we will always be young". In that festival hundreds of young people just like me dreamed of making the world a better place. We put flowers in our hair and danced to the sound of the music, letting ourselves get carried away. We wore the fragrance of freedom and we flowed with our emotions. And, without realizing it, the revolution of love was born.

The message of "peace and love" became our life philosophy. We believed in the magic of flowers, in the respect for all human beings, etched in our minds was the fact that we had to protect the Planet.

And while I travelled along the west coast of the USA at full speed, I felt that life accelerated to keep up with the pace of my van. The music led me along the long sunny roads, giving me golden skies and endless landscapes.

I left the most magnificent places I could ever imagine behind me. Each new city was a new opportunity, a new adventure, a new memory in my mind. Los Ángeles, San Francisco, San Diego... Each new city was a new opportunity to connect with other people who felt the same as I did: that life flows in colours, with new shapes. Through love.

And that is how the revolution began, with the beat of the music in our ears and the feeling that we were eternal. Because that is the greatest revolution of life: that of love.

Let your feelings flow!

Anekke Hollywood: una vida de cine

Siempre he estado locamente enamorada de la vida. Y es que vivir es hacer realidad el guion de una película en la que tenemos el papel protagonista. Donde la pasión es el maquillaje más perfecto que existe. Donde las personas creativas pueden hacer lo inesperado. Porque somos mucho más que simples actrices o espectadores de una película: somos estrellas.

Hollywood se convirtió en mi hogar. Los grandes estudios de cine, las conversaciones detrás de las cámaras y los instantes detrás de los focos en los que interpretar a otras personas, eran parte de mi día a día. Y con cada "¡corten!", volvía a ser yo misma.

Volvía a ser esa versión de mí llena de sueños. La que caminaba por una alfombra roja en la que todos los flashes brillaban para mí. Pero, también, esa científica que se ocultaba tras las luces cegadoras de la noche de un estreno.

Comprendí que el éxito no sólo estaba en las grandes salas de cine repletas de gente que soñaba con mis películas. El éxito es sentirte completa. Tener una mente libre, ya que tu mente es tu mejor traje. Tu mente es mucho más importante que cualquier apariencia.

Y la mía volaba entre ecuaciones y sistemas matemáticos, entre frecuencias cifradas y mensajes secretos. Y así, mi nombre se grabó en la historia: como aquella actriz que, con sus inventos, cambiaría el modo de comunicarnos. Como la inventora del wifi.

Y así, comprendí, que la vida es el mayor espectáculo al que asistimos. Que somos mucho más que un guion, más que una película, más que una simple historia. Somos la suma de todas las cosas que nos hacen felices. Y mi historia aún brilla en Hollywood. Mi nombre siempre tendrá un lugar entre los mayores inventores de la historia. Mi luz jamás dejará de brillar.

Y así, querida, es como se escribe una vida de cine.

Anekke Hollywood: a life in cinema

I have always been head over heels in love with life. Because living is like making the script of a film in which we have the leading role become reality. Where passion is the most perfect make-up that exists. Where creative people can do the unexpected. Because we are much more than mere actresses or spectators of a film: we are stars.

Hollywood became my home. The big film studios, the conversations behind the camera and the moments behind the scenes where interpreting other people, were part of my everyday life. And with each "cut!" I became myself again.

I became that version of myself full of dreams once more. The one who walked on a red carpet where all the flashes of the cameras were for me. But, also, that scientist who hid behind the blinding lights of the night of a star.

I understood that success was not only in the huge movie theatres full of people who dreamed about my films. Success is feeling complete. Having a free mind, because your mind is your best suit. Your mind is much more important than any appearance.

And mine flew between mathematical equations and systems, between encrypted frequencies and secret messages. And so, my name was recorded in history: like that actress who, with her inventions, would change the way we communicate with each other. Like the inventor of Wi-Fi.

And this is how, I understood, that life is the biggest show that we see. That we are much more than a script, more than a film, more than a simple story. We are all the things that make us happy. And my story still shines in Hollywood. My name will always have a place among the greatest inventors of history. My light will never stop shining.

Indeed, my dear, it is how a life in cinema is written.
