

NEW PRODUCTS INSPIRATION GUIDE 2025

INTRODUCTION

ENDLESS POSSIBILITIES ON... NEW PRODUCTS

Welcome to our 2025 Inspiration Guide, a selection of exclusively NEW products, designed to meet your needs and to inspire you.

A collection of over 150 new products: from entry-price level products to Recycled Classics and new additions to our retail brands, you will find a match for every budget. With many customisation options to offer, the collection is perfectly suited to put your brand in the spotlight.

The possibilities are endless...

HOW CAN YOU CHOOSE A PRODUCT WITH A LOWER IMPACT?

There's more than one way to make a lower-impact choice. Opt for recycled materials, locally made products, or items with a lifetime warranty. Choosing products with certified supply chains or meaningful social impact stories also helps reduce your environmental footprint. Small decisions add up — choose what matters most to you.

HOW TO CHOOSE A LOWER IMPACT PRODUCT?

- **RECYCLED MATERIALS** – Made from previously used materials that are given a new life.
- **TRANSPARENT SUPPLY CHAIN** – Know where it's made, how it's made, and who made it.
- **LOCALLY PRODUCED** – Less transport and supports local jobs.
- **LONG LIFESPAN** – Durable design that reduces waste over time.
- **RECYCLABLE DESIGN** – Easy to separate and recycle after use.
- **PRODUCTS WITH A CERTIFICATION** – Verified by standards like GRS or OEKO-TEX®, for trace responsible sourcing.
- **SOCIAL IMPACT** - Supports fair work, communities, and environmental initiatives.

RECYCLED CLASSICS

In our pursuit of environmental responsibility, we launched new and recycled versions of our bestselling articles. We are striving to replace existing products with more sustainable alternatives.

The background image shows a hand reaching down to pick up a discarded plastic bottle from a sandy beach. The scene is set at sunset, with the sun low on the horizon, creating a warm, golden glow. The image is framed by large, diagonal teal-colored shapes. In the center, there is a circular logo with a teal recycling symbol (three arrows forming a triangle) and the text "RECYCLED CLASSICS" in a bold, teal, sans-serif font.

PRODUCT CERTIFICATIONS & MEMBERSHIPS

Sustainability certifications help identify products that meet verified environmental and social standards. They offer transparency and build trust by showing that materials, production methods, and working conditions meet clear, independent criteria. These labels make it easier to make responsible, informed choices.

GRS – Certification ensuring recycled materials and responsible social environmental practices.

FSC – Certification promoting responsible forest management, ensuring sustainable timber production.

Aware™ – Unites a physical tracer with public blockchain technology for trusted traceability.

Certified by Control Union
CU 1019665

RCS – Verifies recycled content in products, ensuring supply chain transparency.

OEKO-TEX® – Certification ensuring textiles are free from harmful substances.

Better Cotton Initiative – The world's leading sustainability initiative for cotton.

An aerial photograph of a winding asphalt road cutting through a dense, lush green forest of tall evergreen trees. The image is framed by large, semi-transparent green geometric shapes: a triangle on the left and a larger shape on the right, creating a modern, graphic look. The text is centered over the road.

A logo is more than a symbol—it's the heartbeat of your brand. When applied to product media, it transforms everyday items into powerful brand touchpoints. From endless possibilities on colour with digital print to more refined branding with laser engraving, the right printing technique can give your product a premium, reliable or trendy look. When used thoughtfully, your logo does not only represent your brand – it adds value. Turning a simple product into a lasting brand experience.
